Meet the AMAZING Year 5 Team

5L - Kim Lord
5R - Judi Radd
5S - Harry Stirk (Domain Leader)
5V - Tamsen Versluis
5W - John Waller

Upcoming events
* 7 Feb - Meet the Teacher 3.15pm - 4.00pm
* 7 March - Cross Country
* Friday Week 7 - GALA Day sport commences
* Week 9 - Parent-teacher interviews
* 31 March - Term 1 concludes

Mathematics

In our preparation for NAPLAN, we will be revising all of the Mathematical strands. As a cohort, we will be conducting maths rotations, whereby the students can experience some hands-on and tactile activities to help them solidify key mathematical concepts.

Understanding of place value, factors and multiples, fractions, 24 hour time, the four operations, number patterns, angles and three dimensional shapes will also be covered this term.

Literacy

In Literacy, the students will be examining both persuasive and narrative genres. We will explore a range of persuasive texts such as Letters to the Editor, newspapers and feature articles. Our narrative study will be highly engaging with a comparison of the novel and film versions of ‘Storm Boy’.

Spelling will continue in our differentiated groups using ‘Words Their Way’. Reading groups will be a significant component of our literacy block and vocabulary will continue to be a focus through our S.T.R.I.V.E program.

Key Learning Area Rotations

History, Geography, Visual Art, Digital Technologies and Health will be taught across the Year 5 cohort.

The following teachers will be responsible for the teaching and learning activities within these subjects as well as the assessment.

Mrs. Versluis - History
Mr. Stirk - Digital Technologies
Miss. Lord - Visual Art
Mr. Waller - Geography
Ms. Radd - Health

“The best preparation for tomorrow is doing your best today.”
H. Jackson Brown, Jr.
